

Under the Andalusian sun, Finca Johanna celebrates its tenth season of naturism, conviviality and well-being!

Dear naturist friends

We are delighted to share a special occasion with you: the celebration of the tenth season of Finca Johanna, your naturist refuge under the sunny skies of Andalusia! Since it opened, with its 5 guest rooms and two gîtes, Finca Johanna has become much more than a naturist holiday destination. It's an oasis where conviviality, relaxation and connection with nature come together. We have welcomed visitors from all over the world, sharing moments of happiness, relaxation and friendship in an exceptional setting.

Pool, sun and festivities

With the friends who have helped us since the Finca was founded, with our visitors from Andalusia and the far corners of the world who have brought this place to life, we have created a haven of peace where you can relax by the pool, feel the sun's rays caress your skin and celebrate the naturist lifestyle in a warm atmosphere. To mark this tenth year of shared happiness, we are organising a series of special events throughout the season, including outdoor music parties and evenings under the stars.

Join us in celebrating the love of naturism as we mark our tenth season by celebrating the freedom, friendship and simplicity of the naturist lifestyle in a place where nature and harmony take centre stage.

Finca Johanna: where naturism becomes a celebration of life.
